## Open, Clean, Inspect & Close Kits

### Equipment Specifications:

Trailer Dimensions:	20'L x 8'W x 8.5'H
Tooling Trailer Weight:	18,500 LBS
Rigging Trailer Weight:	10,000 LBS
Power Requirements:	115V Hookup

### Kit Repair Capabilities

- Major Overhauls
- Valves & Bearing Inspections
- Auxiliary Equipment
- General Inspection

The Field Deployment Team at Power Plant Services can deploy all the tooling kits necessary for open, clean, inspect & close jobs, to your site at a moments notice. We supply all OCIC jobs with two standalone containers, with each container housing different equipment types; one representing rigging and one representing tooling.
